

Focus Group Discussion (FGD) Regarding Economic Waste Management

The Chancellor of Medan Area University (UMA) received a visit from Sweden in the Focus Group Discussion on Relating to the Management of Economic Waste, The Speaker from Sweden H. Johan G. Muler will deliver guidance on Samh Management within the UMA.

In his speech, the Chancellor of this FGD Waste Management activity is very important to support our Program in the Environment, UMA is a tertiary institution that received the GreenMetric World University Rankings certificate where we won the 25th National Level and 472 International Level Ranking, I hope that with the FGD getting guidance from Mr. H Johan G. Muler for giving us input on waste management in the campus environment of Medan Area University.

In his speech, Mr. Karim said that Waste Management at the Medan Area University Campus has been sorted out where it is organic and non-organic waste. In the management of organic waste, we at UMA pick up trash in the UMA environment and pick up trash at MMTTC Tax for processing at the Compost House, and I hope that later we will process non-organic waste into seeds with non-organic waste processing machines.

In his remarks Mr. Zulheri said I hope that guidance from Mr. Johan to us to deal with the garbage in the UMA environment if we need to make a Detector Machine to find out the garbage in the UMA environment if he could sound to know the location of the waste that does not throw garbage in its place, I hope later we will make a Memorandum of Understanding of Cooperation between the University of Medan Area with the Company Mr. Johan.

Mr. Rizkan in his brief remarks I hope the promise from Mr. (who is next to the Rector) yesterday we had cooperation with the father but it is only necessary to collect the promise of the father in the Cleaning of the Environment, our Law Faculty Students are willing and they have made a group decision by the related father Implementation of Cleanup of the Environment.
