

Congratulations To UMA Students, Achieved RAKERNAS IV IMTI Indonesia Competition

Congratulations to Medan Area University Students again, this time the students of the Faculty of Civil Engineering Industrial Engineering Study Program named Muhammad Rais Mahfuz (178150004) won 3rd place in the AutoCAD Design Contest with products made by Cabinets for Loading Files.

Achievements carved by the students of the Faculty of Engineering Industrial Engineering Study Program were obtained from the RAKERNAS IV IMTI Indonesia competition at Serang Raya University on Monday (02/10/2020).

The IVT National Working Meeting also carries the theme "IMTI Unity Serves the Country" filled with the National Seminar with the theme "Opportunities and Challenges in Building the Country to Face Industrial Progress in Era 4.0".

The activity was also enlivened by the inauguration and upgrading of IMTI Indonesia, Graphic Design Competition, IMTI Indonesia's Fun Futsal and Banten Tourism Field Trip. It is planned that the event will last for 5 days.

Upon the achievements of the Champion 3, Medan Area University congratulates and is very grateful, and hopes that in the future students, SMEs in UMA will get more championships from other fields.
